

Rhino + Lion park Outing follow up July 2015

Outing Report by Dave McMurdie

Our day outing on the 19th July 25, 2015 to the Rhino and Lion park was well attended with eleven vehicles and 31 people, we had some new faces with a very special welcome back to some well-known faces being Kit and Destiny, this is the first trip that Destiny has been able to attend for almost a year after having her back surgery,

Everything went according to plan, we all met up at the entrance between 9-00 and 9-30am, In true shopkeeper fashion Jenny Warricker was doing a great job of getting everyone to sign their details and collecting money for the entrance fees, she negotiated a volume discount with the venue, this with the R50 going to the club, we were able to raise R1470-00 going to the club, many thanks to everyone

By 10-00 we were on our way into the park led by Dave McMurdie and followed up by John (tail end) Middleton and another radio holder Keith Fraser, who kept us together until Clive got conflicting signals at the white lion enclosure which saw Dave Mac disappear, but no worries, by the time we were left the cheetah enclosure we were back in convoy and heading for a pit stop at the Lion enclosure entrance where we re-grouped

John Middleton led the convoy over the kopjes past the 4x4 area with what was a truly awesome display of a wide variety of wild animals, the Rhinos were in such heathy condition, nice to see them in their correct habitat, thanks to the park staff and owners for a well run wild life sanctuary

Onto the day visitors area where Clive, Dave Mac and Andre Pieter's were getting the fires started for a relaxing afternoon braai with nice warm weather and a great crowd made another successful Four Wheel Drive club outing

Till next time,

Regards Dave McMurdie
